This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Invesco Energy S&P US Select Sector UCITS ETF (the "Fund") A sub-fund of Invesco Markets plc (the "Umbrella Fund") Acc (ISIN: IE00B435CG94) (the "Share Class")

The Fund is managed by Invesco Investment Management Limited, part of the Invesco Group.

Objectives and Investment Policy

- The Fund is a passively managed Exchange-Traded Fund (ETF), which aims to track the Net Total Return performance of the S&P Select Sector Capped 20% Energy Index (the "Index")¹, less fees, expenses and transaction costs. The Index represents the energy sector of the S&P 500 Index.
- The Fund does this through the use of unfunded swaps ("Swaps"). These Swaps are an agreement between the Fund and an approved counterparty to exchange one stream of cash flows against another stream but do not require the Fund to provide collateral, on the basis that the Fund has already invested in a basket of equities and equity related securities (namely shares). The performance of the Index is swapped from the counterparty to the Fund in exchange for the performance of equities and equity related securities.
- The Fund shares are listed on one or more Stock Exchange(s). Only Authorised Participants may subscribe or redeem shares directly with the Fund. Other investors can buy or sell shares daily through an intermediary directly or on Stock Exchange(s) on which the shares are traded. In exceptional circumstances, other investors will be permitted to redeem their shares directly from the Company in accordance with the redemption procedures set out in the Prospectus, subject to applicable laws and any relevant charges.
- The Fund's base currency is USD.
- **Dividend Policy:** This class does not pay you income, but instead reinvests it to grow your capital, in line with its stated objectives.
- **Net Asset Value:** This is calculated daily and the Fund is open for redemptions on each day on which the United States Federal Reserve System is open. Please refer to the prospectus for further information.
- **The Index:** The Index represents the energy sector of the S&P 500 Index. The constituents are classified according to the Global Industry Classification Standard (GICS) and maintain the same classification as the parent S&P 500. The Index follows a modified market capitalisation weight methodology. The weight of each constituent security is based on its float adjusted market cap but is modified such that no constituent security has a weight exceeding 19% of the Index as of each quarterly rebalancing.

Risk and Reward Profile

- The Share Class is in risk category 7 due to the rises and falls of its price or simulated data in the past.
- As the Share Class' risk category has been calculated using historical data, it may not be a reliable indication of the Share Class' future risk profile.
- The risk category may change in the future and is not guaranteed.
- The lowest category does not mean a risk free investment.

Other Risks

- **General Investment Risk:** The value of investments, and income from them, can go down as well as up and you may not get back the full amount you invested.
- **Concentration risk:** The Fund might be concentrated in a specific region or sector or be exposed to a limited number of positions, which might result in greater fluctuations in the value of the Fund than for a fund that is more diversified.
- **Equity Risk:** The value of equities and equity-related securities can be affected by a number of factors including the activities and results of the issuer and general and regional economic and market conditions. This may result in fluctuations in the value of the Fund.
- **Risk of using Derivatives:** The Fund's ability to track the benchmark's performance is reliant on the counterparties to continuously deliver the performance of the benchmark in line with the swap agreements and would also be affected by any spread between the pricing of the swaps and the pricing of the benchmark. The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
- **Synthetic ETF Risk:** The fund might purchase securities that are not contained in the reference index and will enter into swap agreements to exchange the performance of those securities for the performance of the reference index.
- For more information on risks, please see the Fund prospectus under "Risk Factors", which is available at etf.invesco.com (select your country and navigate to Product/Prospectus).

The Fund is not sponsored or endorsed by the index provider and a full disclaimer can be found in the Fund's prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None*
Exit charge	None*
Charges taken from the Share Class over a year	
Ongoing charge	0.14%
Charges taken from the Share Class under certain specific conditions	
Performance fee	None

- *Authorised Participants dealing directly with the Fund may pay an entry charge up to a maximum of 5% and an exit charge up to a maximum of 3%. Although not charged directly to investors who are not Authorised Participants, these charges may have an impact on brokerage fees, transaction fees and / or the bid-ask spread. Currently, the Fund is not exercising its entitlement to apply entry and exit charges.
- The **ongoing charge** is based on the fee paid to the Manager. The Manager is responsible for discharging from its fee, costs attributable to the Investment Manager, Administrator, Depository as well as the Operational Expenses incurred by the Fund. It excludes portfolio transaction costs except in the case of an entry or exit charge paid by the Fund when buying or selling shares/units in another fund.
- Because the Fund is an ETF, investors will typically only be able to buy or sell shares in the secondary market. Accordingly, investors may incur brokerage and / or transaction fees in connection with their dealings. Investors may also bear the costs of "bid-ask" spreads; meaning the difference between the prices at which shares can be bought and sold. You should discuss these fees and costs with your broker before you invest, as they may reduce the amount of your initial investment and the amount you receive on disposal.
- For more information on charges, please see the relevant charges section in the Fund supplement under "General Information Relating to the Fund", which is available at etf.invesco.com (select your country and navigate to Library/Supplement).

Past Performance

- Fund launch date: 16 December 2009.
- Share Class launch date: 16 December 2009.
- The base currency of the Fund is USD.
- Past performance of the Share Class is calculated in USD.
- Performance is calculated based on the net asset value of the Fund after deduction of ongoing charges and is inclusive of gross income reinvested. Any entry/exit charges shown are excluded from the calculation.
- Past performance is not a guide to future performance.
